HIGHER VANITY CALL SIGN APPLICATION FEE NOW IN EFFECT The ARRL Letter Vol. 24, No. 33 Aug. 26, 2005

The application fee for an Amateur Radio vanity call sign rose to \$21.90 effective for applications received by the FCC on or after Tuesday, August 23. The FCC's Wireless Telecommunications Bureau released a new Fee Filing Guide

<http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-260618A1.pdf>this week, and WTB personnel have confirmed that the new vanity fee is in effect.

The fee applies to applications for new vanity call signs as well as to license renewals for current vanity call sign holders. Vanity call sign licenses issued in 1996 when the FCC resurrected its vanity program will be coming up for renewal starting in mid-2006. Under current rules, Amateur Radio licensees may only file renewal applications within 90 days of their license expiration date.

More information on vanity call signs is available on the ARRL Web site <<http://www.arrl.org/arrlvec/vanity.html>>.

FCC REALIGNS AMATEUR PRIVILEGES FOR REGION 1 AND 3 LICENSEES The ARRL Letter Vol. 24, No. 32 Aug 19, 2005

The FCC has realigned Amateur Radio allocations for Commission licensees living or operating within Regions 1 and 3. The changes to Part 97, which reflect decisions made at World Radiocommunication Conference 2003, make the band 7100-7200 kHz available to

amateur operators in Regions 1 and 3 effective September 9.

Under the revised regime, Novice and Technician Plus licensees may operate 7.100-7.150 MHz, CW only, 200 W output; General licensees may operate 7.100-7.150 MHz, CW/RTTY/data, 200 W output; Advanced and Amateur Extra may operate 7.100-7.150 MHz, CW/RTTY/data, 200 W and 7.150-7.200 MHz, CW/phone/image, 1500 W output. The special segments below 7.100 MHz are also retained.

The changes to Part 97 affect approximately 1250 FCC licensees as well as Commission-licensed stations operating portable or mobile within Regions 1 and 3.

After March 29, 2009, the 7.1-7.2 MHz segment will be allocated to the Amateur Service on a primary and exclusive basis throughout the world, with some exceptions.

AMATEUR RADIO AWARENESS DAY TO FEATURE EMERGENCY POWER OPERATING EVENT The ARRL Letter Vol. 24, No. 33 Aug. 26, 2005

What makes Amateur Radio unique is its ability to communicate with one another anywhere in the world--and even in orbit--without having to rely on any outside infrastructure whatsoever. Hams can even do this without being plugged into the wall socket. Experienced radio amateurs take this capability for granted, but the general public is far less aware of it. So, an Emergency Power Operating Event (EPOE) on Amateur Radio Awareness Day, Saturday, September 17, will highlight Amateur Radio's ability to communicate worldwide without commercial mains, the Internet or a cellular telephone system.

"What better way to mark Amateur Radio Awareness Day than by calling attention to this unique capability?" says ARRL CEO David Sumner, K1ZZ. "It is particularly appropriate since September is the Department of Homeland Security's National Preparedness Month."

Amateur Radio Awareness Day activities typically focus on increasing public awareness. Past events have included public demonstrations, talks to community groups and getting local media coverage. According to DHS, National Preparedness Month is aimed at encouraging Americans to prepare for emergencies and to raise public awareness about the importance of being prepared.

This Amateur Radio Awareness Day, September 17, the ARRL will sponsor a 15-hour Emergency Power Operating Event for stations operating off the grid. "It is not a contest," Sumner stresses. "It is simply a demonstration of what we amateurs can do without having to rely on the commercial mains, and what we will do whenever the need arises."

An announcement in September QST (page 49) spells out the details. The event kicks off at 1300 UTC on Saturday, September 17, and wraps up at 0400 UTC on September 18. The ARRL is inviting home stations to operate from generator or battery power. Mobiles and

portable stations also are welcome to participate, although unlike Field Day, the emphasis is not on setting up a temporary station, but rather on operating your regular station on emergency power.

OPERATING EVENTS
